

the natural alternative to steroids for eczema & psoriasis

Newsletter 25

February 2006 : Winter Issue

An increasing number of our satisfied, happy customers are managing to obtain Elena's Nature Collection via their GPs on prescription. Well done everyone.

Sadly we have discontinued our Solar Factors however we can obtain Full Sun Block from Denmark at the same cost ie £27.00 for 200mls.

Our offer to all our customers this time is a free Illumination Cream 10 gram sample which normally costs £4.00 with orders over £75.00. This enables our customers to try Elena's latest "baby", a more substantial cream than Eureka for very stubborn and ultra dry area. Also very effective on the older skin. Offer ends 27th June 2006.

A new website is overdue. The old one perhaps a bit tree-hugging and the purple colour now totally out of date. Yes we can all laugh at ourselves Poca Hontas attire and admittedly the black wig burnt when Elena's and Keith's house burnt down on 17th February this year. Elena's last sentence in her book is "The phoenix always rises from the ashes". Await this space. Her book, The Fate You Create (apt title) will be available online or via her help line within 1 month. Feedback is imminent she says! Also when our new website is out please comment as we want to get it as right and good as possible.

Becca, one of our assistants is leaving to pursue new challenges and a new lady called Alison will be starting on 29th March. Life keeps changing, "change there is" a noble Buddhist truth.

Please find a new web page with information for you to take to the doctor to Elena's Nature Collection on prescription. A new quick way, we still offer GP information packs as well.

Thank you again to all our wonderful, helpful customers, we couldn't exist without you in all ways.

NB Elena reassures everyone that no one was burnt or hurt in the fire and Keith and her are living in their little cottage on Woodmans Farm.

Love and light
Elena, Keith, Annie, Becca and Jill
